

# 2018 Annual Report to The School Community

School Name: Belvedere Park Primary School (4902)

- All teachers at the school meet the registration requirements of the Victorian Institute of Teaching ([www.vit.vic.edu.au](http://www.vit.vic.edu.au)).
- The school meets prescribed minimum standards for registration as regulated by the Victorian Regulation and Qualifications Authority (VRQA) in accordance with the Education and Training Reform (ETR) Act 2006. This includes schools granted an exemption by the VRQA until 31 December 2018 from the minimum standards for student enrolment numbers and/or curriculum framework for school language program.
- The school is compliant with the Child Safe Standards prescribed in Ministerial Order No. 870 – Child Safe Standards, Managing Risk of Child Abuse in School

Attested on 08 March 2019 at 01:20 PM by Bradley Clark  
(Principal)

- All teachers employed or engaged by the school council meet the registration requirements of the Victorian Institute of Teaching.
- To the extent that the school council is responsible, the school meets prescribed minimum standards for registration as regulated by the Victorian Regulation and Qualifications Authority (VRQA) in accordance with the Education and Training Reform (ETR) Act 2006. This includes schools granted an exemption by the VRQA until 31 December 2018 from the minimum standards for student enrolment numbers and/or curriculum framework for school language program.
- To the extent that the school council is responsible, the school is compliant with the Child Safe Standards prescribed in Ministerial Order No. 870 – Child Safe Standards, Managing Risk of Child Abuse in School.

Attested on 25 March 2019 at 09:06 AM by Karen Armfield  
(School Council President)

## About Our School

### School context

Belvedere Park Primary School is a dynamic learning community located in Seaford, a bayside suburb of Melbourne. Our confirmed budget for the 2018 school year was derived from our enrolment of 386 students. In 2018 our school had 25.51 equivalent full time staff composed of 2 Principal Class, 23 teachers and 7 Education Support Staff. A strong focus on positive, respectful and supportive relationships between all members of our school community is a high priority. At the centre of our work is the aspiration to achieve high-quality outcomes while providing a level of care, support and empathy towards our children that we believe is both supportive and productive. Our school has created an inviting and friendly culture where parents, staff and students are able to work together to nurture optimism and success.

We have a strong focus on promoting academic rigor through the consistent implementation of a documented and resourced whole school plan. This has resulted in high quality student work, increased student learning outcomes and enhanced student confidence. At Belvedere Park we encourage optimism, respect, responsibility, trust, empathy, initiative and resilience. Belvedere Park promotes high standards in Numeracy, Literacy, Information and Communication Technologies and all other areas of student participation. The Physical Education, Visual Arts, Languages and Performing Arts programs are vital parts of our learning environment bringing depth, engagement and increased participation to our well-balanced curriculum and pedagogy.

Belvedere Park Primary School opened its new STEAM Centre in term 2, 2017 and has built strongly on its success throughout 2018. This purpose-built structure, incorporating cooking facilities for up to 30 students, provides for the children and staff, a learning environment that we feel is second-to-none. Children and staff have worked on targeted teaching and learning activities that integrate Science, Technology, Engineering, Arts and Mathematics along with English, Nutrition and the Personal and Social Capabilities. Children are highly engaged in cooking and other STEAM sessions throughout the year, with each class cooking lunch on a number of occasions. This activity in particular has provided a great springboard for inquiry learning through a wide range of additional literacy and numeracy activities.

Whole-school team planning by our committed staff, based on high expectations for student achievement, underpins our core purpose to provide flexible, targeted learning programs to accommodate a variety of learning styles. To this end, our staff participates in ongoing professional learning directed towards improved student learning outcomes.

Belvedere Park Primary School is a positive, supportive and optimistic school with a culture that promotes successful student outcomes. We are extremely proud of our school, our children, our staff and our community.

### Framework for Improving Student Outcomes (FISO)

Our strategic direction is based on the learning needs of our children and the FISO priority; Excellence in Teaching and Learning. Our school environment is positive and productive. We direct our resources towards improving student learning outcomes as effectively as possible using the School Strategic Plan and the Annual Implementation Plan as the basis of our operations. Building Practice Excellence and Curriculum Planning and Assessment are the initiatives on which we have designed our Key Improvement Strategies. Professional leadership is strategic and highly focused on the needs of the children and staff such that our vision, values and culture are well supported through our actions.

2018 was the first year of implementation of our new Strategic Plan. Our staff, children and community were particularly engaged in the review process which provided high quality feedback on which we have been able to act. Our clear focus remains on our teaching and learning needs and on planning further for continuous school improvement. We have refocused our dual foci of strengthening achievement in writing and the development of science/inquiry learning and assessment using proficiency scales/agreed assessment tasks based on the Victorian

Curriculum. The use of the new STEAM facility will enhance our rich teaching and learning through elevated student engagement in hands-on, practical activities.

We continue to allocate resources towards the operation of a targeted, cohesive professional learning program. We have extended the use of expert consultancy by partnering with Educational Consultants in literacy (ongoing), numeracy (ongoing) and clinical psychology, ensuring we offer a whole school program that supports and is compliant with the Victorian Curriculum. Over recent years the program has resulted in the development of a school-wide contemporary pedagogy centered on the needs of our children. Our partnership with a clinical psychologist is targeted at assisting teachers to better understand the learning needs of their children such that further personalisation around the management of children as learners is potentiated. In 2018, our NAPLAN results in year 3 and 5 were generally at or above those of like schools, demonstrating high relative growth between years three and five when compared to like schools and the state.

Equity funding targets areas of our operation that assist the delivery of and participation in teaching, learning and wellbeing related to our strategic priorities. In Foundation this includes implementation of the "Let's Chat" oral language program and ABC and Beyond. In years 1/2, this includes the employment of additional staff in literacy intervention along with the presentation of an enhanced classroom curriculum, with a view to enhanced engagement and continuously improving learning outcomes. Equity funding was used to fully implement an intensive literacy and numeracy program across the senior school. Our intervention programs potentiated another year of excellent results in 2018 and will be further developed and implemented in 2019. In addition to the work undertaken in literacy and numeracy, Equity funding was also used to provide consumables for the STEAM Centre and ICT. The STEAM centre provides to our staff, the ability to plan and implement a highly engaging program of focused teaching and learning in an environment that is fit for purpose. Equity funding has assisted us to provide an ES staff member responsible for the organisation of the STEAM Centre, ensuring it is very well used across all year levels.

Clear funding priorities, an inclusive, targeted curriculum and appropriate staffing, ensures the key improvement strategies we are implementing, support our teaching and learning. The willingness and professionalism of staff to embrace the whole-school plan, support each other and grow their practice, ensures we are meeting the rigors of our whole school curriculum, its scope and sequence, all within the context of equity and inclusion.

## Achievement

At Belvedere Park Primary School, we align all areas of the school's operation to ensure that the progress we make towards achieving the targets of our Strategic Plan and FISO is maximized and clearly focused on continuously improving student-learning outcomes.

Belvedere Park Primary School's achievement levels in student learning are due to a number of factors. We have a comprehensive and student-focused teaching and learning program where the ongoing differentiation of the curriculum is a priority. Extensive professional learning and the implementation of evidence-based teaching and learning strategies create an environment where children can experience high quality needs-based learning. Our learning outcomes, combining teacher-assessment against the Victorian curriculum and NAPLAN results, indicate that our students are generally performing at an appropriate level when compared to students from similar schools.

Our school has developed essential practices across the core curriculum to ensure that our whole school approach develops sequentially, creating a clear continuity of practice and a "line-of-sight" through the seven years of a child's primary education with us. Our carefully selected staff is strongly committed to the success of our children, working hard to identify each child's learning, social and emotional needs such that feelings of successfulness, optimism and resilience combine to create positive outcomes. The NAPLAN results for Grade 3 and Grade 5 indicate our school is generally achieving at a similar level when compared to like schools and within the average range of all Victorian Government Schools. Writing and problem solving will be the focus for our work in the coming 12 months and beyond.

Extensive teacher moderation, student tracking and detailed assessment and reporting procedures have contributed

to the continued improvement in teaching and learning outcomes at our school. We strive to enhance the manner in which we identify the individual learning needs of our children and to differentiate and consolidate their learning. Our evidence-based strategies for the teaching and learning of key areas of the curriculum are firmly entrenched in the daily practices of our school, creating a school-wide common language that enhances student understanding.

A focus on Literacy development within a broad ranging curriculum will continue to be supported by whole-staff professional learning. Our ongoing relationship with targeted Educational Consultancy and our comprehensive and engaging curriculum potentiate high relative student learning growth . Our ICT program has enhanced student learning and continues to successfully engage and further prepare our students. Inquiry learning with a bias towards science will become even more of a focus throughout 2019 as our Learning Specialist, in consultation with staff and students, continues the development of a diverse program of teaching, learning and assessment.

## Engagement

Student Attitudes to School Survey results in 2018 indicated a high degree of positivity towards all variables. The result for each variable landed in the third and fourth quartiles. Over a 3 year period our results are at or above both the State and Region results. The results indicate that our students feel a sense of belonging and connectedness to their school and their peers. Our school has high expectations for student learning and behaviour, resulting in high levels of cooperation and support for the staff and each other.

Our areas of (engagement) focus in 2018 and beyond are:

1. Effective Teaching Time - ensuring that the children recognise and support the nature of our teaching program.
2. Differentiated Learning Challenge - ensuring that the children feel that the teaching and learning program is reflective of their needs while providing appropriate challenges.
3. Stimulating Learning - ensuring that the children are engaged in the content of the teaching and learning program.

The implementation of Restorative Practices along with resilience programs such as 'Bounce Back' and 'Getting It Right' has had an impact on this result. The use of class Circle Time has provided a safe forum for student voice and a place where feelings and opinions are expressed confidently and free of criticism. In 2018 we began work with a Clinical Psychologist to ensure that we are fully able to personalise our learning program around the development in our children of a continuously improving resilient mindset.

Our school addresses non-attendance issues in line with our Student Engagement and Inclusion Policy and the Student Attendance Guidelines. Our staff monitors student attendance and intervenes through a variety of methods including re-engagement processes, the development of pro-social skills and ongoing contact with parents and carers.

Our caring and supportive staff contributes generously to the success of our school environment. Students can feel safe, motivated and engaged in their learning. This is reflected in our positive school culture where students, parents and staff are encouraged to support each other. Clearly outlined values and codes of behaviour for our school community are based on mutual respect and tolerance. This promotes open communication, acceptance of diversity and a positive school spirit. We have developed a strong culture of high expectations for all modes of student behavior.

Our STEAM Centre opened in early 2017. This purpose-built structure, incorporating cooking facilities for up to 30 students, provides for the children and staff, an engaging learning environment that we believe is second-to-none. Children engage in a program that fully integrates a wide curriculum range and provides an absorbing and exciting alternative format for addressing our priority areas in 2018 and beyond.

## Wellbeing

Our school is strongly committed to ensuring the wellbeing of our students. Successfully addressing the wellbeing needs of our children increases student engagement and the readiness of each child to participate broadly in the school's program. We address this by ensuring our students have access to appropriate social and emotional development opportunities, a differentiated curriculum and appropriate levels of care and nurturing commensurate with their stage of development. We provide personalized support for children as required and have a strong relationship with local external agencies and providers. We have a strong commitment to the Child Safe Standards and the implementation of Restorative Practices along with resilience programs such as 'Bounce Back' and 'Getting It Right'.

We believe well-planned transitions enhance wellbeing. Our school has a comprehensive preschool transition program including student familiarization sessions throughout the year. Transitions within the school and between year levels are well planned to support the children through the process of change. Parent transition sessions familiarize new parents with our school's operation and also enhance our wellbeing practices. We have strong links with community organizations such as Belvedere Community House, pre-schools and child-care centers. These supportive relationships are highly valued. We have a buddy system for Foundation students involving regular activities with the year five/six students. Our year six students too are involved in a strong and diverse transition program along with having opportunities to link with community entities.

On completion of year six our aim is that all students will leave our school with a positive attitude towards themselves and their learning and be optimistic, responsible, reliable, respectful contributors. Our goal is that all children will be numerate and literate, ICT competent, conduct themselves in a socially acceptable manner, demonstrate resilience and optimism and have a desire to do their personal best. We continue to be very proud of our children, staff, community and school.

### **Financial performance and position**

Our school finished 2018 with a surplus. This occurred as a result of careful strategic management of the funds provided through our SRP. Surplus funds from the 2018 school year will be used in 2019 to staff intervention programs, fund resource replacement and to provide additional resources including ICT equipment. In 2018 our school received an additional \$1.4m State Government funding to refurbish the existing facilities by modernising a section of the teaching spaces. The modernisation project will reinvigorate the middle school facilities by providing a more contemporary environment where teaching and learning can be implemented with increased flexibility and some of our student amenities can be renewed. We also receive substantial Equity Funding which we allocate to priority areas across the school to ensure quality access to additional and intervention programs.

# Performance Summary

The Government School Performance Summary provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian Government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes.

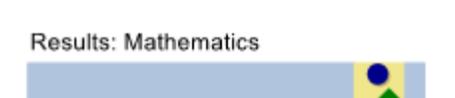

Members of the community can contact the school for an accessible version of these data tables if required.

<b>Asset Acquisitions</b>	<b>\$8,144</b>		

(1) The Equity funding reported above is a subset of overall revenue reported by the school

(2) Student Resource Package Expenditure figures are as of 04 March 2019 and are subject to change during the reconciliation process.

(3) Misc Expenses may include bank charges, health and personal development, administration charges, camp/excursion costs and taxation charges.

(4) Salaries and Allowances refers to school-level payroll.

All funds received from the Department, or raised by the school, have been expended, or committed to subsequent years, to support the achievement of educational outcomes and other operational needs of the school, consistent with Department policies, School Council approvals and the intent/purposes for which funding was provided or raised.

# How to read the Annual Report

## What does the *About Our School* section refer to?

The About Our School page provides a brief background on the school, an outline of the school's performance over the year and plans for the future.

The 'School Context' describes the school's vision, values and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics and special programs.

The 'Framework for Improving Student Outcomes (FISO)' section includes the improvement initiatives the school has selected and the progress they have made towards achieving them.

## What does the *Performance Summary* section of this report refer to?

The Performance Summary reports on data in three key areas:

### Achievement

- student achievements in:
  - English and Mathematics for National Literacy and Numeracy tests (NAPLAN)
  - English and Mathematics for teacher judgements against the curriculum
  - all subjects for Victorian Certificate of Education (VCE) examinations (secondary schools)

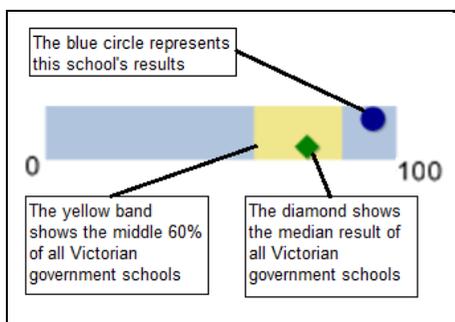

### Engagement

- student attendance and engagement at school
- how many students leaving school go on to further studies or full-time work (secondary, P-12 and specialist schools)

### Wellbeing

- Attitudes to School Survey (ATOSS)
  - Sense of connectedness
  - Management of Bullying

Results are displayed for the latest year, as well as the average of the last four years (where available).

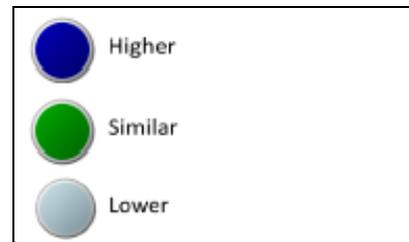

## What does *School Comparison* refer to?

The School Comparison is a way of comparing this school's performance to similar schools in Victoria.

The comparison measure takes into account the school's academic intake, the socio-economic background of students, the number of Aboriginal students, the number of non-English speaking and refugee students, the number of students with a disability and the size and location of the school.

The School Comparison shows that most schools are achieving results that are '**Similar**' to other schools with alike student backgrounds and characteristics. Some schools are doing exceptionally well and have '**Higher**' performance. Some schools have '**Lower**' performance than expected and receive targeted support to ensure that there is improvement.

More information on School Comparison performance measures can be found at:

<http://www.education.vic.gov.au/school/parents/involve/Pages/performance.aspx>

## What does '*Data not available*' or '*ND*' mean?

Some schools have too few students enrolled to provide data. There may be no students enrolled in some year levels so school comparisons are not possible.

New schools have only the latest year of data and no comparative data from previous years.

The Department also recognises unique circumstances in Specialist, Select Entry, English Language and Community Schools where school-to-school comparisons are not appropriate.

## What is the *Victorian Curriculum*?

The Victorian Curriculum F-10 sets out what every student should learn during their first 11 years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with a disability or students who may have additional learning needs.

'Levels A to D' are not associated with any set age or year level that links chronological age to cognitive progress (i.e. there is no age expected standard of achievement for 'Levels A to D').
